

INN-3 More than one certificationPOINTS
AVAILABLE**5****AIM OF CREDIT**

To encourage and recognise projects that take advantage of the value that independent verification of sustainability credentials (via certification) offer at the various project stages of a building/space.

CREDIT CRITERIA

The same project is registered for certification under a number of different project stages/components of our rating tools (Sustainable Precincts, Edge, Socio-Economic [SEC], Design, As Built, Interiors and Existing Building Performance).

One point is awarded where:

- The same project is registered for certification under two different project stages/components of the above.

Two points are awarded where:

- The same project is registered for certification under three different project stages/components of the above.

Three points are awarded where:

- The same project is registered for certification under four different project stages/components of the above.

Four points are awarded where:

- The same project is registered for certification under five different project stages/components of the above.

Five points are awarded where:

- The same project is registered for certification under six different project stages/components of the above.

DOCUMENTATION REQUIREMENTS / EVIDENCE**Green Star SA – ALL TOOLS**

Submit all the evidence and ensure it readily confirms compliance.

- Fully registered for the other tools (including payment & signed agreement)*

INN-3 More than one certificationPOINTS
AVAILABLE**5**

***The GBCSA will freeze the project on the CE until the building is ready to be activated (where relevant).**

Fully registered for the other tools

- For project stages/components still to be certified - submit a copy of the registration form that was submitted and proof of payment for the project registration under the specific rating tool, plus a signed certification agreement or a letter of commitment from the building owner for certification under a specific tool.
 - o For projects on the Certification Engine (CE) the CE activation email will suffice.
- For project stages/components that have been certified – submit a copy of that project’s stage /component certificate which demonstrates the rating achieved.
