GBCSA PRODUCT MEMBER CATALOGUE

2023

ISSUE 1

CATALOGUE OVERVIEW

Green Building Council South Africa (GBCSA) has released Issue one of the 2023 GBCSA Green Pages, which profiles product members who have an environmental focus.

The catalogue serves as a reference for those looking for possible solutions for green building projects and lists products according to the related Green Star rating system category - Water, Materials, IEQ and Energy.

GBCSA certifies buildings and not specific products, but this catalogue provides insight into the related Green Star rating system categories where these products could help achieve points. The catalogue is a helpful tool made possible through the support of GBCSA's members who produce and distribute products that are well placed in green buildings.
