NET ZERO

PROFESSIONAL
TEAM MEMBER
(PTM) TRAINING

Professional Team Members (PTMs) are individuals who are equipped to play a support role in a project team in the design and certification of a Green Star or Net Zero-registered project.

Green Star New Buildings & Major Refurbishments

Green Star Existing Building Performance

Green Star Sustainable Precincts

Green Star Interiors

Net Zero

As a registered Green Star or Net Zero PTM, each candidate will be equipped with the knowledge to support a project team in the design and certification of a Green Star or Net Zero registered project. Each PTM Training course will focus on one of the GBCSA rating system tools.

- Green Star Existing Building Performance (EBP)
- Green Star New Buildings and Major Refurbishments
- Green Star Interiors
- Green Star Sustainable Precincts (SUP)
- Net Zero or Net Positive

A Green Star or Net Zero PTM is recognised as a professional with a greater understanding of environmental issues related to the built environment and property industry.

THIS TRAINING CAN BE VALUABLE TO A VARIETY OF ROLEPLAYERS IN THE GREEN BUILDING SPACE

PTM training provides a broad base for learning about green building and is especially useful for:

- Those who design and build: Design teams, Building Contractors
- Those who operate buildings: Facilities Managers and their teams
- Project teams working to bring Green Star or Net Zero projects to life

COURSE OBJECTIVES

The training programme provides a high-level and practical overview of the Green Star or Net Zero rating systems for the specific tool in focus. It provides insight into all major aspects of environmental sustainability that should be considered related to that particular tool. The course aims to empower team members to:

- Understand the importance of sustainability in the built environment and the role of the GBCSA within this.
- Understand the particular Green Star or Net Zero rating tool on which the training course is centred (EBP, New Buildings, Interiors, SUP or Net Zero).

COURSE FORMAT

Online Learning

Duration: 8 to 10 hours of course material.

Flexible, self-managed online learning on our e-learning platform: Complete it at your own pace and in your own time.

Includes video, eBooks, quizzes, useful downloadable resources and references.

Live Stream Webinar

Duration: 2-3 hours.

This interactive online workshop requires full attendance and participation.

Engage in real time in a group setting, ask questions and receive immediate feedback.

What is the difference between an Accredited Professional (AP) and a Professional Team Member (PTM) ?

A registered Green Star or Net Zero AP will be equipped with the knowledge to guide a project team in the design and certification of a Green Star or Net Zero registered project. Their role includes taking ownership of the submission process.

A registered Green Star or Net Zero PTM will be equipped with the knowledge to support a project team in the design and certification of a Green Star or Net Zero registered project. Their role includes support through various means, such as strategic support in the lead up to the certification of the green building project, or operations of the project post-certification.

CERTIFICATION

Candidates who complete the course will receive a certificate of completion from GBCSA Academy.

ENTRY REQUIREMENTS

There are no prerequisites to attend this course. All interested groups are welcome.

CPD ACCREDITATION

1.5 Category 1 Points to be awarded to each SACAP registered professional
